# UTM Seals MoU with Etiqa for the Benefit of Academic and Research

Collaboration & Networking, General / By Mohd Zamri Osman / April 4, 2023 / 2 minutes of reading

JOHOR BAHRU, 28 Mar — Universiti Teknologi Malaysia (UTM), through its global prominence strategy, has set its sight on developing and maintaining a smart partnership with renowned institutions around the world.

Recently, the Faculty of Computing has signed a memorandum of understanding (MoU) with Etiqa to further strengthen, promote and develop academic and research collaboration on information and communications technology between both parties.

MoU Signing Ceremony between UTM and Etiqa

The signing ceremony of this MoU was held on the 28<sup>th</sup> of March 2022 at Universiti Teknologi Malaysia (UTM) Johor Bahru.

UTM was represented by its Vice-Chancellor, Prof. Datuk Ts Dr Ahmad Fauzi bin Ismail, whereas Etiqa was represented by Etiqa's Chief Executive Director, Mr Amran Hassan.

The signing ceremony was attended by Etiqa's Group Human Capital Director, Pn. Rozima Binti Yahya, Chief Digital Strategy and Transformation Officer, Mr Dennis Liu, and delegations from UTM and Etiqa.

In his speech, Prof. Datuk Ts Dr Ahmad Fauzi Ismail said the memorandum, which would translate the sharing of academic knowledge and research initiatives, would also bring many benefits to the community, universities, and industry, especially Etiqa.

Meanwhile, during his speech, Mr Amran Hassan, the Chief Executive Director of Etiqa, highlighted the importance of adapting the technological advancements in the industry. He emphasized that new technologies like ChatGPT will have an impact not only on the academic sector but also on the industry as a whole. Etiqa also recognizes significant potential from this MoU.

The strategic cooperation focuses on three main pillars: talent development, teaching and learning, and technology and digital innovation. Among the initiatives to be implemented by both parties include academic and research collaboration, talent development programs, joint seminars, workshops, and conferences.

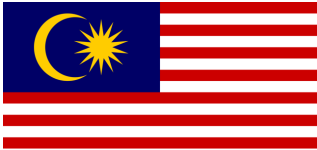

In addition to this initiative between UTM and Etiqa, the collaboration will further enhance the global prominence of both parties nationally and globally.

Etiqa is a multi-channel distributor of Insurance and Takaful products via its 10,000 agency force, 46 branches and 17 offices, over 490 bancassurance network (via Maybank branches, third-party banks, as well as co-operatives and brokers) through its presence in Malaysia, Singapore, the Philippines, Indonesia and Cambodia.

In striving to make the world a better place, Etiqa's Sustainability journey focuses on internal initiatives that reduce its carbon footprint. It increases its social impact, as well as external solutions that allow its clients to do the same.

As this initiative draws to a close, it is anticipated that both parties will establish a Memorandum of Agreement (MoA) for continued collaboration.

Etiqua, first local insurer to be signatory to UN Principles for Sustainable Insurance

theedgemarkets.com / theedgemarkets.com

March 23, 2023 17:50 pm +08

Etiqua International Holdings Sdn Bhd

chairman Datuk R Karunakaran

A

KUALA LUMPUR (March 23): Malayan Banking Bhd's (Maybank) insurance and takaful arm Etiqa International Holdings Sdn Bhd (EIH) has become the first insurer in Malaysia to sign on to the United Nations' (UN) Principles for Sustainable Insurance (PSI) under the UN Environment Programme Finance Initiative (UNEP FI).

Through this initiative, Etiqa will incorporate the four principles for sustainable insurance — as presented by the UN in its business strategy — by embedding in decision-making environmental, social and governance (ESG) issues relevant to its business; working together with its clients and business partners to raise awareness of ESG issues, manage risk and develop solutions; working together with governments, regulators and other key stakeholders to promote widespread action across society on ESG issues; and demonstrating accountability and transparency in regularly disclosing publicly their progress in implementing the principles.

“Our vision to ‘Making the world a better place’ supports the very essence of the good that we can bring to the industry and the global community at large. We believe that for every action that we take, its impact will resonate far and wide in the world of sustainability. We look forward to joining other sector leaders in playing our role in leaving a legacy worthy for our future generations,” EIH chairman Datuk R Karunakaran said in a statement on Thursday (March 23).

EIH group chief executive officer Kamaludin Ahmad said that in 2019, Etiqa had responded to the call by Bank Negara Malaysia for companies to adopt value-based intermediation, which is the Islamic equivalent of ESG.

"Since then, we have implemented sustainable practices, and embraced our position in balancing the equation between people, the planet and profit, in the way that we carry out our insurance and takaful business. Our four-year journey between 2019 to 2022 saw us establishing our sustainability governance, spreading sustainability awareness, tracking our sustainability baselines, and moving towards external facing sustainable initiatives.

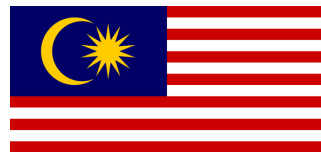

EIH group CEO Kamaludin Ahmad

"We are honoured now to be able to declare to the global community that we are ready to disclose our progress in sustainability transparently, according to the four principles of PSI in line with our vision," he added.

The UNEP FI is a partnership between the UNEP and the global financial sector to mobilise private-sector finance to help create a financial sector that serves people and the planet while delivering positive impact. The UNEP FI works with more than 400 members comprising banks, insurers and investors, and over 100 supporting institutions.

## Etiqua, first local insurer to sign on to UN Principles for Sustainable Insurance

Etiqua International Holdings chairman Datuk R. Karunakaran

KUALA LUMPUR: Etiqa has become the first insurer in Malaysia to sign on to the United Nations' Principles for Sustainable Insurance (UN PSI) under the UN Environment Programme Finance Initiative (UNEP FI).

In a statement, the insurer said it would incorporate the four principles for sustainable insurance as presented by the UN in its business strategy.

Etiqua said it would embed in its decision-making environmental, social and governance (ESG) issues relevant to its business.

"Etiqua will work together with its clients and business partners to raise awareness of environmental, social and governance issues, manage risk and develop solutions.

"Etiqua will work together with governments, regulators and other key stakeholders to promote widespread action across society on ESG issues," it said, adding that it would also demonstrate accountability and transparency in regularly disclosing publicly their progress in implementing the principles.

Etiqua International Holdings chairman Datuk R. Karunakaran said: "Our Vision to 'Make the World a Better Place' supports the very essence of the good that we can bring to the industry and the Global community at large.

"We believe that for every action that we take, its impact will resonate far and wide in the world of Sustainability. We look forward in joining other sector leaders in playing our role in leaving a legacy worthy for our future generations."

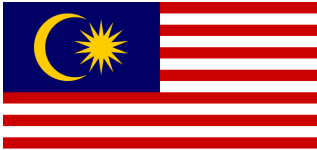

Meanwhile, Etiqa Insurance and Takaful group chief executive officer Kamaludin Ahmad said in 2019, Etiqa responded to the call by Bank Negara for companies to adopt value based intermediation (VBI), which is the Islamic equivalent of ESG.

"Since then, we have implemented sustainable practices and embraced our position in balancing the equation between people, planet & profit, in the way that we carry out our insurance & takaful business.

"Our four-year journey between 2019 to 2022 saw us establishing our sustainability governance, spreading Sustainability awareness, tracking our Sustainability baselines, and moving towards external facing Sustainable initiatives.

"We are honoured now to be able to declare to the global community that we are ready to disclose our progress in sustainability transparently, according to the 4 Principles of PSI in line with our vision of 'Making the World a Better Place,' he added.

The UNEP FI is a partnership between the United Nations Environment Programme and the global financial sector to mobilise private sector finance to help create a financial sector that serves people and planet while delivering positive impact.

# Etiqua **adopts** UN Principles for Sustainable Insurance

➤ It is the first Malaysian insurance and takaful operator to undertake this role under the United Nations Environment Programme Finance Initiative

**KUALA LUMPUR:** Etiqua has taken a bold commitment to sustainability by being the first insurance and takaful company in Malaysia to become a signatory of the United Nations' Principles for Sustainable Insurance (UN PSI) under the United Nations Environment Programme Finance Initiative (UNEP FI).

Through this initiative, Etiqua will incorporate the four Principles for Sustainable Insurance, as presented by the UN in its business strategy, namely, will embed in its decision making environmental, social & governance issues relevant to its business, work together with its clients and business partners to raise awareness of environmental, social and governance issues, manage risk and develop solutions, work together with governments, regulators and other key stakeholders to promote widespread action across society on environmental, social and governance issues and demonstrate accountability and transparency in regularly

disclosing publicly their progress in implementing the Principles.

Etiqua International Holdings chairman Datuk R Karunakaran said, "Etiqua is proud to be the first Malaysian insurance and takaful operator to become a signatory to the UNEP FI Principles for Sustainable Insurance. Our vision to 'Make the World a Better Place' supports the very essence of the good that we can bring to the industry and the global community at large. We believe that for every action that we take, its impact will resonate far and wide in the world of sustainability. We look forward in joining other sector leaders in playing our role in leaving a legacy worthy for our future generations."

Meanwhile, Etiqua Insurance and Takaful group CEO Kamaludin Ahmad added, "In 2019, Etiqua responded to the call by Bank Negara Malaysia for companies to adopt Value Based Intermediation, which is the Islamic equivalent

of ESG. Since then, we have implemented sustainable practices and embraced our position in balancing the equation between people, planet and profit, in the way that we carry out our insurance & takaful business. Our four-year journey between 2019 to 2022 saw us establishing our sustainability governance, spreading sustainability awareness, tracking our sustainability baselines, and moving towards external facing sustainable initiatives. We are honoured now to be able to declare to the global community that we are ready to disclose our progress in sustainability transparently, according to the 4 principles of PSI in line with our vision of Making the World a Better Place."

The UNEP FI is a partnership between the UN Environment Programme and the global financial sector to mobilise private sector finance to help create a financial sector that serves people and planet while delivering positive impact. In 2012, UNEP FI launched four key Principles for Sustainable Insurance to provide a global roadmap to develop and expand the innovative risk management and insurance solutions that is needed to promote renewable energy, clean water, food security, sustainable cities and disaster resilient communities.

# Etiqa Malaysia first insurer to sign UN Principles for Sustainable Insurance

The insurance and takaful provider will integrate the four Principles for Sustainable Insurance in its business strategy.

The Malaysian insurance provider, Etiqa, said it commits its business toward sustainability.

In a recent announcement, the insurer said it has signed to become part of the United Nations’ Principle for Sustainable Insurance (UN PSI) under the United Nations Environment Programme Finance Initiative (UNEP FI).

“In 2019, Etiqa responded to the call by Bank Negara Malaysia for companies to adopt Value Based Intermediation (VBI), which is the Islamic equivalent of ESG. Since then, we have implemented sustainable practices and embraced our position in balancing the equation between People, Planet & Profit, in the way that we carry out our Insurance & Takaful business,” Kamaludin Ahmad, Group Chief Executive Officer of Etiqa Insurance and Takaful said. This initiative aims to direct financial institutions in the private sector into serving both people and the planet.

Started in 2012, the programme developed four key Principles for Sustainable Insurance (PSI) to serve as a roadmap for risk management and solutions.

The UNEP FI works with above 400 banks, insurers and investors and is supported by more than 100 institutions. Presently, the PSI already has 135 insurance companies sign the commitment toward sustainability.

# Etiqua sees growth streak back on track after blip in 2022

BY KANG SIEW LI

Malayan Banking Bhd's (Maybank) insurance and takaful arm Etiqua International Holdings Sdn Bhd (EIH) broke a five-year streak of gross written premium (GWP) growth last year, weighed down by a restructuring of its products in the Singapore market. It expects a strong rebound this year, however, with GWPs likely to see double-digit growth.

The group's general insurance business is expected to drive results.

"We foresee the group's gross premiums growing more than 10% this year. At this point of time, the general insurance business is growing a lot faster [than life insurance]," EIH group CEO Kamaludin Ahmad tells *The Edge* in an interview. The 54-year-old has helmed the group since December 2013.

The life insurance business is likely to grow "at a moderate pace of at least 5%", as persistent inflationary pressures have sent the disposable incomes of households down, he notes. "People are a bit more careful [with their spending] amid tight liquidity."

"For life insurance, it's often considered to be not a necessity. On the other hand, general insurance is seen as a necessity because, for example, you have to renew your car insurance every year."

EIH, which operates in Malaysia, Singapore, Cambodia, the Philippines and Indonesia, saw total GWPs last year fall 3.3% year on year to RM11.09 billion, from RM11.47 billion.

Profit before tax (PBT) for the financial year ended Dec 31, 2022 (FY2022), also contracted 48% y-o-y to RM472 million, from RM907.6 million, dragged down by its operations in Singapore, which also suffered from volatile investment market conditions that year.

Partially offsetting this decline was the performance of the group's four main operating entities in Malaysia: Etiqua General Insurance Bhd, Etiqua Life Insurance Bhd, Etiqua General Takaful Bhd and Etiqua Family Takaful Bhd, which reported a combined highest-ever PBT of RM1.07 billion in FY2022, up 14.9% y-o-y from RM931 million.

The group has managed to get back on its feet quickly, and the loss from its Singapore operations in 2022 has already been shrugged off by Kamaludin as a blip.

According to him, EIH's Singapore operations have returned to profit since last month as it diversified from universal life insurance products towards longer-tenure protection and investment-linked plans with higher margins.

Kamaludin also points out that a big chunk of the Singapore operations' investment loss in 2022 was due to the mark-to-market accounting treatment of rising interest rates on its fixed income portfolios, including those in China, that forced a writedown of asset values. He notes that the mark-to-market loss will reverse when interest rates fall and the bonds get closer to maturity.

"That's why we are not concerned by it at all. To me, it is more important to make sure that the business is growing, and growing in the right area," he says.

"In this regard, the general insurance business in Malaysia and Singapore is still growing fast. I am talking about 20% to 30% kind of growth in Singapore. Part of the growth is attributed to the acquisition of intermediaries/agents there in early 2021."

## Asean-owned ranking based on gross premium

Note: Among the Asean-owned insurers, Etiqa has improved from ranking No 5 in 2019 to No 3 in 2021

Maybank Ageas Holdings Bhd's financial highlights					
YEAR ENDED DEC 31 (RM MIL)	2018	2019	2020	2021	2022 (UNAUDITED)
Operating revenue	8,044.1	8,955.7	11,936.7	12,306.0	12,064.7
Gross earned premiums/contributions	6,641.7	7,461.4	10,708.7	10,761.2	10,270.0
Profit before tax	801.0	931.5	958.1	932.2	474.5

“We foresee the group's gross premiums growing more than 10% this year.”  
— Kamaludin

Kamaludin says the group is constantly reviewing its assets/liabilities matching needs with a view to mitigate the mark-to-market volatility. "For our business, which is long term in nature, it is very important for us to focus on acquiring good-quality assets with attractive long-term yields and hold it until maturity."

The group's FY2023 PBT is expected to return to its growth path, Kamaludin says, adding that it is expected to be "a lot better than what it was last year."

At present, Malaysia accounts for 76% of the group's net written premiums (excluding premiums ceded to reinsurers) and Singapore makes up 21%. The remaining 3% comes from its international operations in

Indonesia, the Philippines and Cambodia.

Maybank's insurance and takaful subsidiaries in Malaysia and Singapore are parked under Maybank Ageas Holdings Bhd, in which the banking group owns a 69.05% stake through EIH. Brussels-based insurer Ageas Insurance International NV owns the remaining 30.95% in Maybank Ageas.

Meanwhile, its operations in Indonesia, the Philippines and Cambodia come under EIH.

**Group's growth will continue to outpace rest of industry**  
Maybank Ageas, which provides its insurance services under the Etiqa brand, is currently the largest general insurance and takaful

operator in Malaysia, with a market share of 14.3%, or RM3.63 billion, of the combined general insurance and takaful industry GWP of RM23.56 billion.

Of the group's net premiums written in general insurance in 2022, 55% originated from motor insurance.

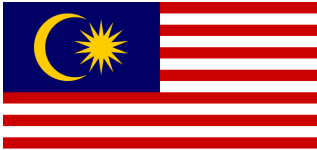

"In the last four to five years, we have continued to outpace the general and takaful insurance market, growing at a compound annual growth rate of 8% versus the industry's CAGR of 3%. Last year, we grew faster by about 18% y-o-y and [the momentum] continues into 2023. We are looking at a growth of about 30% y-o-y in January and February," says Kamaludin, who is also group CEO of Maybank Ageas.

This is no mean feat. "If you look at the other large players with revenue of more than RM1 billion, four or five of them either have flat growth or saw a slight decrease in growth. Then you have players like Etiqa growing at a 15%-to-18% clip in most of the years since 2017," says Kamaludin, who attributes the better results to a shift in mindset within the group.

"If you think about it, you don't consume insurance until something happens. So, we made the mindset shift to ensure that when it is consumed, the experience at the point of claim has to be good. In this regard, we pay workshops higher labour rates than many of our competitors for motor vehicle repairs. We rely on them to take good care of our customers."

"Over time, people started talking about why cars [insured by Etiqa] get resolved quicker than others. So, we build our reputation that way. Because of that, the growth has been steady. And we don't really see our competitors catching up because they are more focused on distribution. While that is important, sometimes, the focus is so much on who can give better incentives to the distributors. This is not sustainable because actions like that can only escalate. It is a never-ending game, so we don't want to take that kind of approach. We take the customer angle; although it means it can be costly upfront for us, in the long run, we think we can gain. And it has been proven as such."

And Etiqa is not stopping there. Kamaludin says the group will continue to focus on customer-focused products such as its "drive less, save more" motor insurance plan and Etiqa Smile application, which is aimed at increasing customer stickiness. "Our thinking is, how do you work with customers so that their risk is mitigated and their premiums can be lowered at the same time?"

# No respite for markets in 2023, says Etiqua

BY CHERYL POO

Outperforming the local equity and global bond markets will be difficult this year as the market environment will continue to be challenging, says Norlia Mat Yusof, group chief investment officer (investment management division) of Maybank Asean Holdings Bhd. Maybank Asean is a partnership between Malayan Banking Bhd and Brussels-based Asean Insurance International NV.

"The outlook for the year is very much dependent on the [movement of] interest rates. If they remain flat, it will be [manageable] in terms of the mark-to-market effect on the group's profitability," Norlia tells *The Edge* in an interview.

"In terms of the economy, if borrowing costs remain low at current levels, it will raise affordability while spurring growth as it allows potential homebuyers to get cheaper financing rates."

She says rising interest rates over the past year have led to mark-to-market losses for the group's fixed-income portfolios, as it was forced to write down asset values. However, the investment loss has no cash impact and is expected to be reversed in future years when the assets reach maturity.

"We hoped to get an uplift from equities, but that didn't happen. On the contrary, the investment performance was somewhat lifted by the fixed income asset class towards the last two months of 2022 as the 10-year Malaysia government bond yield fell from 4.5% to close at 4.06% on growth concerns ahead," she adds.

The benchmark FBM KLCI fell 4.6% during the year to close at 1,495.49 points on Dec 30, 2022. It is currently down 4.8% year to date, having ended at 1,403.93 points last Wednesday.

Norlia notes that Etiqua's equity portfolio is

LOW YEN YEING/THE EDGE

The group now focuses on stable dividend-yielding stocks as well as those in the banking, telecommunications and utility sectors."

— Norlia

still small, accounting for not more than 5% of its total investments in the past five years. Fixed income makes up about 90% of its investment portfolio.

"I think this is the right decision as the equity market has not been performing for

the past eight years. There was a time when our equity portfolio went up as high as 10% of total investments, but we brought it down to 5% when the stock market wasn't going anywhere," she says, adding that the group now focuses on stable dividend-yielding stocks as well as those in the banking, telecommunications and utility sectors.

Asked if Etiqua had benefited from the 2021 rally in glove stocks, Norlia says Etiqua is guided by the 5% allocation to equity investments. "What we put into glove counters was just enough. We avoid sector concentration risks in order to [maintain] a diversified portfolio."

Despite the challenging market conditions, Maybank Asean's financial statements for the financial year ended Dec 31, 2021 (FY2021) show that its net investment income grew 11.5% to RM1.47 billion from RM1.32 billion in FY2020. For 1H FY2022, its net investment income came in at RM788.9 million, up 11% from RM709.77 million a year earlier.

Still, the right balance of inflation rate and interest rate hike is important for a healthy economy. "When the inflation rate goes up and interest rates remain low, it may have a negative impact on the local currency. But I believe the government will bring more foreign direct investments into the country, which will help cushion the weakness in the ringgit," says Norlia.

She notes that in a volatile interest rate environment, an accurate reading of its movements is crucial and this is where data analytics play an important role for the group.

"We equip our fund managers with the required skill sets to perform data analytics because with that, they are able to forecast interest rates and market directions more accurately. This guides our market outlook and investment strategy accordingly."

## Investment limitations for insurers

"Where then do we put our money? If fixed income, we are hit by mark-to-market losses. If [fixed] deposits, the rate was still very low last year," says Norlia, pointing out that the 10-year Malaysian government securities (MGS) yielded slightly above 4% last year and the yield has largely remained below 4% so far this year.

In addition, at any given time, insurance companies in Malaysia can only invest up to 10% of their total investments in overseas markets. "So even if you can get good returns from a foreign investment, it will not be able to pull up the overall return given our maximum exposure to foreign investment under regulation is only 10%," she says.

"We have plans to grow big in the China market. This is part of our 10% allocation to overseas markets, which include fixed income and equity. If we were to invest in foreign bonds, we would do a 100% hedge so that we don't have to take currency risk because fixed income has a long tenure. We also plan to invest in sovereign bonds issued by Gulf Cooperation Council countries such as Abu Dhabi and Qatar that are AA-rated.

"If you go into foreign equities, you don't hedge the currency because of the dynamic nature of equity markets. Therefore, when we buy, we go with the view that the currency will also give us potential returns as there is the potential for a strengthening currency. Then, we can ride both the returns from the currency and the underlying stocks."

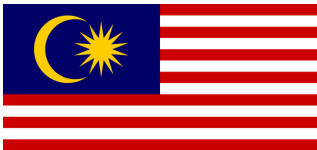

Norlia is encouraged by the government's proposal to spend RM4.8 billion on the digital economy as well as RM1.5 billion on digital start-ups, as announced during the retabling of Budget 2023 last month.

"This will encourage Bursa Malaysia-listed companies to go digitally abroad, which in turn can help improve their earnings. This will help lift the performance of the FBM KLCI."

### Penduduk Kampung Sungai Sok, Slor Machang terima bekalan air bersih

ZAFRI Abd Halim (dua dari kanan) melihat tangki penyimpanan air bersih selepas Majlis Perasmian dan Penyerahan Program Air Bersih Etiqa di Kampung Sungai Sok, Kuala Krai, Kelantan hari ini. UTUSAN/ ROSMIZAN RESDI

Oleh ROSMIZAN RESDI 4 Mac 2023, 4:31 pm

KUALA KRAI: Penantian lebih 30 tahun penduduk di Kampung Sungai Sok dan Kampung Slor Machang di sini untuk menikmati bekalan air bersih akhirnya menjadi kenyataan apabila impian itu direalisasikan oleh Etiqa Takaful Berhad (Etiqa). Sebelum ini, 1,200 penduduk di kedua-dua buah kampung itu bergantung sepenuhnya kepada penggunaan air tandak sebagai sumber utama kegunaan harian seperti mandi, memasak, minum dan mencuci pakaian.

Seorang penduduk, Nik Hamdi Nik Mamat, 63, berkata, sudah lama mereka memasang impian untuk menikmati bekalan air bersih sebagaimana kawasan-kawasan lain.

“Sebelum ni, kami di sini hanya menggunakan air tandak yang agak tidak terjamin kebersihannya terutamanya ketika musim kemarau.

“Setelah itu, kami telah membuat permohonan kepada Etiqa dan ia telah diluluskan. Tiada apa yang dapat kami ucapkan selain berterima kasih dan penduduk di sini cukup berpuas hati dengan bekalan air bersih ini,” katanya ketika ditemui pemberita di sini hari ini.

Sementara itu, Ketua Pegawai Eksekutif Etiqa Family Takaful Berhad Zafri Abd Halim memberitahu, projek berkenaan adalah tanggungjawab korporat Etiqa untuk komuniti bertujuan membantu meringankan beban penduduk setempat dalam mendapatkan air bersih.

Katanya, projek yang bermula sejak hujung Januari lalu itu dibiayai sepenuhnya oleh Etiqa dan dilaksanakan menerusi kerjasama Islamic Aid Malaysia (IAM)

“Sejak lebih 30 tahun yang lalu, penduduk di sini bergantung kepada sumber bekalan air bukit daripada anak sungai berhampiran, dengan menggunakan sistem air graviti yang telah dibina sendiri oleh penduduk kampung secara bergotong-royong.

“Masalah utama yang dihadapi oleh penduduk kampung sebelum ini adalah kekurangan air daripada tadahan air sedia ada berikutan kerosakan pada paip air tersedia yang kerap bocor, serta saiz tandak air yang kecil dan tidak dapat menampung keperluan penduduknya,” ujarnya.

Mengulas lanjut Zafri berkata, menerusi projek ini, tandak air lama yang terletak di kawasan bukit berhampiran kampung tersebut telah di naik taraf bagi tujuan mendapatkan kuantiti air yang lebih banyak dan tekanan air yang lebih tinggi sebelum ianya di salurkan ke Rumah Pam.

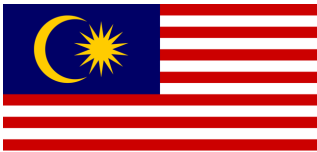

Katanya, projek ini menggunakan sistem graviti bagi tujuan penyaluran air dari Tandak Air melalui Polypipe sepanjang lebih kurang lima kilometer dari Muka Sauk (Intake) ke Rumah Pam.

“Air tersebut akan ditapis dan dirawat terlebih dahulu menggunakan Sistem Penapis Air Membran Sintetik Berskala Tinggi dan kemudiannya disimpan di dalam dua buah tangki simpanan berkapasiti 10,000 gelen yang disediakan.

“Air terawat kemudiannya disalurkan terus ke paip utama untuk kegunaan harian penduduk kampung. Selain itu, turut dibina juga adalah pusat pengambilan air atau ‘stand-pipe’ di kawasan berhampiran bagi memudahkan penduduk mengambil air bersih untuk kegunaan harian,” katanya. —UTUSAN
