Home repairs to cost thousands of ringgit for some

PETALING JAYA: The estimated repairs and restoration for the damaged houses in the gas pipeline blast in Putra Heights will cost up to hundreds of thousands of ringgit for each property, according to an insurance adjuster.

Malayan Adjustment Company Sdn Bhd (MAC) chief executive officer Ramakrishnan Kervsseben said based on a preliminary report, the estimated cost to restore each of the damaged houses ranged between several thousand ringgit and hundreds of thousands of ringgit.

"While several houses merely saw damaged fittings, such as

shattered glass windows due to the vibration and shockwaves from the blast, others sustained structural damage, which would cost a lot more to repair," he said, adding that the company was appointed by six insurance companies to carry out assessments of the houses.

He said although it is a tedious process, damage evaluation reports on the affected houses are being prepared promptly for submission to the insurance companies to expedite the disbursement of compensation for the victims.

Ramakrishnan said despite facing limitations such as entry restrictions imposed by the authorities due to safety concerns, the company's adjusters have managed to carry out assessments on about 15 houses over the past three days.

He said in a show of empathy and compassion, insurance companies are offering waivers, concessions and many free services on top of compensation payouts.

"To help ease the difficulties faced by their clients, some companies have maintained the no-claim discount, keeping it intact even though claims were made for damaged vehicles.

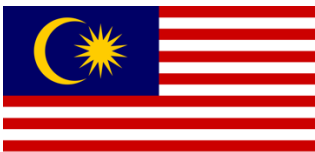

"Also offered were fast-track claims up to RM50,000 to eligible clients without the need for supporting documents from the authorities," Ramakrishnan said.

At the Putra Heights mosque relief centre, several insurance companies set up booths to assist victims with claims for their vehicles and damaged houses.

The insurance companies are also offering free towing and cleaning services, independent safety inspections for both vehicles and houses and free contractor arrangements.

Good biz sense or just lip service? Weighing Etiqa's instant response to Putra Heights gas pipeline blast

By FocusM 03/04/2025 in Business , Featured , Top

THE massive Putra Heights gas pipeline explosion has set tongues wagging.

Beyond ascertaining who is at fault over the towering atomic bomb-shaped blast, a more pertinent question would be who will cover the damages incurred by scores of Jalan Putra Harmoni residents whose homes and vehicles were devastated by the gigantic fireball that erupted on April 1.

According to Subang Jaya District police chief ACP Wan Azlan Wan Mamat, a total of 235 premises – including shops and residential units – were affected by the incident. Additionally, some 399 vehicles were either scorched by the fire or sustained 'minting effect' from heat climbed to 1,000° Celsius.

This was when Etiqa came to the fore with a statement inviting affected residents to make the relevant claims. It further simplified the process by waiving the need for a police report.

Richard Ker @richardker · Follow

Wow, maybe I should consider them.

Anyone can share their experience?

The company's swift response to this incident caught the attention of marketing-influencer Richard Ker (@richardker) who was sufficiently impressed to admit he would contemplate signing up with the Maybank-backed insurer.

This is when he requested others to share their experience of being Etiqa customers on X.

On a positive note, many highlighted the efficiency of Etiqa's vehicle breakdown assistance and towing services as examples of speedy response.

we had total lost accident b4. It took them few hours b4 towing come to pick the car. Otherwise it was smooth. Another time car broke down, they tow from johor to a w in puchong. Smooth process. It's quite easy to reach them via call. Responsive.

So far for me, its good experience.

My parents car got stranded at highway from Perak otw KL & one of their guys manage to spot us.

The guy said insurance fully cover for towing to KL. Just need to add a few RM to my house area workshop.

Ada experience kereta accident and total lost, call etiqa tanya mcm mana proses nak claim semua. Settle borang itu ini bagi geran kunci kereta settle. Berapa minggu dapat dah claim. Even kalau nak flight ke luar negara amik juga insurancd etiqa. Etiqa

This was extended to claims of a total loss on a vehicle badly damaged in an accident with one customer stating his claim was sorted in a matter of weeks.

Some also had positive experiences with the company's other products, namely its travel and flooding insurance schemes.

danieyal @LatiffDanieyal · 6h

their travel insurance is quite good, had a broken baggage, make a claim via an app and it approved in seconds.

ah kim @ahkim1 · 5h

So far, I already claim two flood cases with them..so easy and I got that claim 2 weeks after that

1 · 1 · 1 · 470

However, there were others who did not fare so well when making claims with Etiqa with one commenter stating he has waited for six months for a claim to be resolved.

Qistina @Enqistina · 15h

I'm waiting for a claim for 6 months. Should tell you enough

1 · 1 · 12 · 8.9K

Another proclaimed he stopped using Etiqa's services after the company only responded to a request for vehicle assistance the next day.

jerryac @jerryachte · 15h

had an unpleasant experience with them before. My wife's car had a flat tire on the way home. I tried to call Etiqa, unreachable. Etiqa call me back the next morning. I stop using all their products since.

One netizen asked if any other insurance providers had stepped up with regard to claims related to the gas explosion.

In the internet age, speed is of the essence. Businesses must react to circumstances quickly or risk getting left behind.

It is commendable that Etiqa was first to issue a statement with the added bonus of waiving the need for a police report.

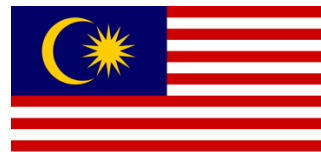

Perception is everything and the convenient process certainly paints a positive picture of the insurance provider. It also shows that the company has the gumption to face head on any negative publicity which is almost inevitable from disgruntled customers.

It remains to be seen if Etiqa walks the walk instead of just talking the talk.

In the meantime, **FocusM** wishes all those affected by the incident all the best in getting their lives back on track. – April 3, 2025

Etiqua Philippines continues its strong commitment to Financial Security

Etiqua Philippines, a long trusted name in the insurance industry as a steadfast provider of life and general insurance solutions, achieved a significant milestone with the renewal of its Certificate of Authority by the Insurance Commission. This renewal, marks another chapter in Etiqua's journey of excellence and dedication to the Filipino people. The process involved meticulous compliance with all regulatory requirements, achieving impressive **Risk-Based Capital Ratio (RBC2)** of 181% for life business unit and 608% for non-life business unit, way above the regulatory requirements. A high RBC ratio for an insurance company signifies strong financial stability, indicating that the insurer has more than enough resources to cover its risks and obligations, while safeguarding the company's capacity to fulfill its long term obligations.

Since its establishment, Etiqua has been committed to delivering innovative and reliable insurance products, ensuring financial protection for Filipinos. As part of the Maybank Group, one of the region's largest and most financially stable institutions, Etiqua Philippines has consistently demonstrated financial strength and stability, earning the trust of its partners, clients, stakeholders and the general public.

The license renewal coincides with a significant development in Etiqua's leadership with the appointment of **Anthony Lau Bernabe** as its new President and Chief Executive Officer. Bernabe, who brings with him more than decades of experience in the insurance and financial services industry says "The license renewal reaffirms Etiqua's commitment to expanding insurance penetration, promoting financial inclusivity, advancing sustainability and ensuring the future of Filipinos. Etiqua aims to enhance insurance accessibility and contribute to nation building by expanding distribution channels and offering innovative, relevant products. Through this, we reaffirm our commitment to driving growth and innovation, ensuring that Etiqua remains a leading insurer in ASEAN region under the Etiqua brand."

As part of its expansion plan, Etiqua relocated to its new headquarters in Makati, incorporating green building technology aligned with LEED (Leadership in Energy and Environmental Design) standards to promote sustainability and provide a better environment for both employees and customers.

All these efforts are grounded in a strong ethical standard of doing business, reflecting commitment to integrity and responsible growth. This commitment is deeply embedded in the company name- **Etiqua**, which stands for ethics and excellence - which serve as a guide as it continues to innovate, expand, and serve with purpose.

Etiqua Philippines is proud of these achievements and remains steadfast in its dedication to providing exceptional service to its partners, clients, and stakeholders. As part of its expansion plan, Etiqa relocated to its new headquarters in Makati, incorporating green building technology aligned with LEED (Leadership in Energy Environmental Design) standards to promote sustainability and provide a better environment for both employees and customers.

Etiqa Philippines, a long trusted name in the insurance industry as a steadfast provider of life and general insurance solutions, achieved a significant milestone with the renewal of its Certificate of Authority by the Insurance Commission. This renewal, marks another chapter in Etiqa's journey of excellence and dedication to the Filipino people. The process involved meticulous compliance with all regulatory requirements, achieving impressive Risk-Based Capital Ratios (RBC2) of 181% for life business unit and 608% for non-life business unit, way above the regulatory requirements. A high RBC ratio for an insurance company signifies strong financial stability, indicating that the insurer has more than enough resources to cover its risks and obligations, while safeguarding the company's capacity to fulfill its long term obligations.

Anthony Lou Bernabe, President and CEO of Etiqa Philippines and Insurance Commissioner Atty. Reynaldo Regalado

Since its establishment, Etiqa has been committed to delivering innovative and reliable insurance products, ensuring financial protection for Filipinos. As part of the Maybank Group, one of the region's largest and most financially stable institutions, Etiqa Philippines has consistently demonstrated financial strength and stability, earning the trust of its partners, clients, stakeholders and the general public.

The license renewal coincides with a significant development in Etiqa's leadership with the appointment of Anthony Lou Bernabe as its new President and Chief Executive Officer. Bernabe, who brings with him more than decades of experience in the insurance and financial services industry says "The license renewal reaffirms Etiqa's commitment to expanding insurance penetration, promoting financial inclusivity, advancing sustainability and ensuring the future of Filipinos. Etiqa aims to enhance insurance accessibility and contribute to nation building by expanding distribution channels and offering innovative, relevant products. Through this, we reaffirm our commitment to driving growth and innovation, ensuring that Etiqa remains a leading insurer in ASEAN region under the Etiqa brand."
